In SUPPORT of this application.

I visit St Martin's at least once a year with my family. We adore the island and are well aware of the need to retain its authenticity.

However, the dilapidated building currently sitting on the road at Lower Town is unsightly and completely out of character with the beautifully maintained buildings around it.

In recent years the island has come to life with the renovation of the pub, the gym and the new property up the hill.

Updating this building will, without a doubt, improve the look and feel of the site. And judging by these plans and the beautiful condition of Teania, it will become an instant asset for the island.

Please don't hesitate to call me if you would like a further, more detailed reference.

Lawrence
