

Brand New Workshop

BEGINNERS WILLOW BASKET WEAVING

With Emma Bailey

Spend a fun afternoon following step by step instructions on how to construct your very own willow basket. In this friendly and supportive group, learn the basic techniques of willow basket weaving, what tools to use and how to use them safely.

Please note: Functional hand strength and dexterity is required to manipulate willow during basket weaving. If this impacts your ability to engage with this course please advise so an alternative shaped willow project can be delivered at an alternative time. Thank you for understanding.
