Timber posts to be made of Pressure Treated Timber.  
Below ground bulid ups and base to engineers desing and specification

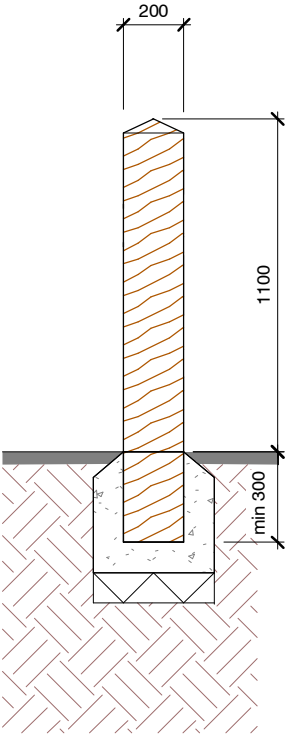

Timber bollards/ detail.  
Plan view.  
Scale 1: 25 @ A3

Drawing to be read in conjunction with all other relevant drawings and documents.

Timber bollards/ detail.  
Elevation.  
Scale 1: 25 @ A3

Timber bollard/ detail.  
Section.  
Scale 1: 25 @ A3

Responsibility is not accepted for errors made by others in scaling from this drawing.  
All construction information should be taken from figured dimensions only.

- General notes:
- Main contractor to determine exact location of services/drainage, this should be confirmed on site prior to commencement of works to avoid tree pit / services conflicts.
  - All foundations and base formations to Engineers design and specifications.
  - All drainage details to Civil Engineers specification and details.
  - All manhole covers within paved areas to be recessed. Manhole covers are to withstand the appropriate loading class within any given area, manufacture and product details are to be confirmed with the Engineer and Landscape Architect.
  - External Lighting to Engineers detail and specification.
  - This drawing assumes that the existing site subsoil could be re-used.
  - All treatment of softwork areas to comply to BS4428 Code of Practice for general landscape operations.
  - All native shrub & hedge species plant type supplied for designated areas are to be determined by the proposed planting season. (ie bareroot or container grown stock).
  - Works described on this drawing include operations within or close to the root protection areas of very important trees. Excavation to be carried out in accordance with Arboricultural survey requirements. If in doubt, STOP and seek clarification.
