SAFE DISPOSAL OF COVID-19 WASTE & RECYCLING

Personal waste (such as used tissues) and disposable cleaning clothes can be stored securely within disposable rubbish bags. These bags should be placed into another bag, tied securely and kept separate from other waste. This should be put aside for 72 hours before being put in your usual external waste bin/dropping at the waste site. Do not place any of this material in with recycling.

COMMERCIAL SKIP/BULKY WASTE

We are currently reviewing the procedure for charging for off island bulky commercial waste and will be in touch with businesses in due course.

RECYCLING AND REUSE

Waste reduction, through reuse and recycling, is still really important and can be achieved safely during the pandemic. Please consider reuse and recycling options where you can & please share these messages with your customers. If you would like advice please contact rebecca.williams@scilly.gov.uk.
