EH would request that the license be reviewed prior to each of these events to ensure that the appropriate measures are put into place so that the license is adhered to in full.

We would state that noise should be monitored throughout the evening, with checks occurring outside of the premise to ensure the impact on the residential area is minimised.

We would also state that particular focus be given to kick out times and the potential nuisances it could cause. Patrons should be requested to move on from the premise in a timely manner. In addition they should be requested to keep noise to a minimum while doing so.

Finally, we state that all litter in the area resulting from the late licenses occurring should be cleaned up to the best of the premises ability. With focus on the cigarette butts on the slipway, and in the street in front of the premise.
