Letter to accompany the Proposed Extension  
and Improved Accommodation of the Flat at the Old Cottage,  
Garrison Hill, ST. MARY'S, ISLES OF SCILLY, TR21 OHY.

I am seeking approval of the attached plans as I have felt there is a need to upgrade the accommodation provided. I did renovate and redecorate the bathroom last year but following my decision to completely renovate and redecorate the Old Cottage, I realised there was a need to do a similar thing to the Flat. I have been unable to improve the facilities provided purely because of its' size and it is for this reason that I wish to extend the flat and provide top-quality accommodation. Staff from the Tourist office visited the Old Cottage last week with a view to putting it in the new brochure and were very complimentary.

The plans have been developed following discussion with Paul Osborne and we asked for a site visit from the planning officer and took on board his advice and suggestions and included these in the plans.

I hope you will agree that these plans will enhance the accommodation provided and allow me to go ahead with my plans.

yours faithfully
