Dracaena

Church Rd

St Marys

TR21 0NA

6.02.2013

**TO WHOM IT MAY CONCERN**

We have owned Dracaena for 40 years and during this time have not upgraded or altered the property apart from installing UPVC windows many years ago.

We intend to try and reduce the heat loss from the building which is a Cornish unit construction and has no wall insulation.

The house is permanently occupied by four adults and the bathroom/toilet facilities are currently inadequate.

The conservatory is very old and needs replacing.

It is hoped that these improvements will considerably reduce the energy consumption levels and enhance living standards.

Mary Barclay
