To The Senior Manager-Infrastructure & Planning .

PLANNING REF No P/14/044/FUL

We are writing to you concerning the above planning application .  
First of all we are not against the conversion of the buildings , because something has to  
be done to them before they fall down .

What we are unhappy about is the proposed overall size , height , & extension of the  
greenhouse .

Looking around the other barn conversions on St Martins hardly any of them have been  
allowed to expand in size , but all kept to their original plans , except for an odd porch  
here & there .

Here's hoping you consider our comments when studying this application .

Yours Faithfully

Amanda J Williams
