Access roof light should only be used in uninhabited rooms, due to the low thermal insulation. The provides easy access to the roof and good lighting in the room. This Fakro roof access window is in conservation style, with black external profile and centre glazing bar.

- Frame is made of pine wood, vacuum impregnated.
- Sash is made of aluminium specially treated durable profile, powder painted
- Grey, fitted inside with a peripheral seal;
- Handle that allows the sash to be secured in two positions to ventilate the room;
- Suitable for roofs with pitches between 15° and 60°;
- Window integrated with flashing with universal apron;
- Aluminium profile of the sash frame is extruded, thus enhancing durability of the sash;
- toughened glass with increased resistance to hailstones;
- specially rounded locking bolts exclude possibilities of injuries;
- easy fitting system on battens does not require additional trimmers and allows
- the movement of the window horizontally to better adjust the place of installation in relation to the roof material profile;

- Installation kit as a standard included with the access roof light facilitates its fitting.

Size 46 x 75cms
