Council Isles of Scilly

BUCCABU HIRE, STRAND, ST MARY'S
Proposed Conversion fro Shop into Flat

Dear Lisa,

I enclose 4 copies of a revised block plan at 1:250 scale, layout plan with amended drainage system and proposed and existing rear elevations. There is no blue line around the property as the owner does not control any additional land.

I have changed the drainage so there will be no need for a new manhole on land controlled by Cornwall Housing Association. It will also be more economic so I thank you.

The only change to the rear elevations will be the large rear ground floor window which I have shown replaced by another UPVC unit. If you would prefer timber, please make it a condition if approval is recommended,
