

4.8 FORTEX CLADDING RANGE

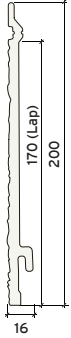

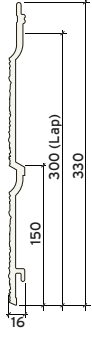

Fortex has an attractive textured wood effect and comes in a range of standard colours.

The range includes exterior cladding systems available in Weatherboard, Double Plank & Flat Panel formats, the Double Plank Format makes installation even easier and quicker than usual.

Fortex requires little maintenance once installed which is a major benefit for residential homes, mobile homes and commercial buildings.

Finally, Fortex comes with significant environmental credentials with the Building Research Establishment's (BRE) 'Green Guide To Specification' giving PVC cladding an A+ rating when installed with standard components.

WEATHERBOARD CLADDING (FCF170E)	DOUBLE PLANK SHIPLAP CLADDING (FCD300E)	FLAT PANEL CLADDING (FCP250E)*
		
		
		
		
		
White	Pale Gold	Sand
Argyl	Pale Blue	Storm Grey
		Colonial Blue

*Flat Panel Cladding Available in White & Sand Only

A+ Rated Cladding

With higher fuel costs and the need to reduce carbon emissions exterior cladding offers the ideal solution. Fortex is designed for use on all types of exteriors including brick, masonry and concrete.

When fitted with standard insulation materials the Building Research Establishment's (BRE) Green Guide to Specification has given PVC cladding an A+ rating.

Easy to Install

A+ Environmental Rating

No Painting Required

External Cladding

Fortex is a range of innovative exterior cladding products with the benefit of low maintenance PVC. An authentic embossed wood effect finish available in single or double weatherboard profiles in a wide range of subtle colours with a full range of trims available.

Durable

The Fortex cladding range is manufactured to stand the test of time. The white products are eligible for an impressive 20 year guarantee and colour for 10 years, backed by Freefoam's environmentally friendly lead free formulation.

Light and easy to Install

Fortex cladding panels are designed to make storing, handling and fitting quick and easy. With the weatherboard cladding weighing just 3.15kg per 5 metre board, it is 4 times lighter than comparable fibre cement board.

A+ rated

PVC cladding offers a sustainable solution. Fortex comes with significant environmental credentials with the Building Research Establishment's (BRE) 'Green Guide To Specification' giving PVC cladding an A+ rating when installed with standard components.
