Re: P/13/043

Amended plans,

West Elevation

Change single door opening to double door opening to Juliet Balcony.

Reason

Single door opening was out of context to the size of the gable end. Double door opening is more aesthetically pleasing.

North Elevation

Move bi-fold doors from western end of the north elevation to a central position.

Reason

Aesthetics, Ease of access to outdoor dining area, extra light to the middle of the house.

Many thanks for your consideration.
