09-11-15

Dear Mrs. Walter,

I am writing to express my concern that Pendrather Quarry may be granted lawful Use on the grounds that it has been in "continuous use" over the last ten years. I have been resident in McFarlands Down for over eight years and prior to the use from 2012 I was certainly not aware of activity at the Quarry - if there was it must have been extremely spasmodic - and can that qualify as "continuous use"?

Apart from the aspect of the Quarry being in continual use, I feel that the granting of further use would be detrimental to the immediate area and surely, if it is classed as being with a

an area described as A.N.O.B, it can
only spoil what is a beautiful, quiet
area of the island.

The increased use of the road would
further damage the surface, which has,
already, suffered considerably since the
increase in heavy traffic since 2012.

I understand that the majority
of residents in the immediate area
oppose this move to grant Certificate
of Lawful Use, and further developments,
and do hope these concerns will
be taken into account.

Yours sincerely,
