In pursuance of their powers under the above act, the Council hereby **PERMIT** the above development to be carried out in accordance with the following Conditions:

C1 The development hereby permitted shall be begun before the expiration of three years from the date of this permission.

Reason: In accordance with the requirements of Section 91 of the Town and Country Planning Act 1990 (as amended by Section 51 of the Planning and Compulsory Purchase Act 2004).

PRE-COMMENCEMENT CONDITION

C2 Prior to the commencement of the approved development, a scheme including details of the sources of all building materials and the means/location of disposal of all demolition material and all waste arising from building works, including excess material from excavations, shall be submitted to and agreed in writing with the Planning Authority. The development shall thereafter proceed in strict accordance with the approved scheme unless otherwise agreed in writing by the Planning Authority.

Reason: This is a pre-commencement condition that requires details that were not submitted as part of the application, but are required to fully understand the impact upon landscape and management of waste, to be submitted and agreed by the Local Planning Authority. This is to ensure those characteristics which contribute to the status of the Isles of Scilly as a Conservation Area, Area of Outstanding Natural Beauty and Heritage Coast are not eroded by uncontrolled mineral extraction or the tipping of waste. In accordance with the requirements of Policy 1 of the Isles of Scilly Local Plan 2005

C3 All works involving machinery required in connection with the implementation of this permission shall be restricted to between 0800 to 1800 hours Monday to Saturday. There shall be no works

involving machinery on a Sunday, Bank or Public Holiday.

Reason: In the interests of protecting the residential amenities of neighbouring properties.

C4 The roof shall be covered with natural slates, to match those of the existing building as closely as possible, using corrosion resistant fixings. The roof shall be retained as such thereafter.

Reason: To preserve and enhance the character and appearance of the conservation areas, in accordance with Policy 1 of the Isles of Scilly Local Plan 2005.

Care should be taken during the work and if bats are discovered, they should not be handled, work must stop immediately and a bat warden contacted.
