To : The Planning Department

With reference to the application by Mr. Richard Perkins for Change of use permission from Agricultural to residential and the addition of a garden shed at 'Trethagan', Higher Town, St. Martin's, Isles of Scilly.

The proposed garden shed is to be constructed on a 100mm concrete base sized to the foot print of the proposed shed. The concrete base will be laid on top of the existing sand ground, which will not require any excavations.

Elevations.

The Front elevation is as per the drawing.

The two side elevations are as per the drawing with one window in the half closest to the door.

The Back elevation is plain wood with no windows, this would be up against the boundary hedge.

The sizes for the windows:

Both Side Elevations - 550mm x 1130mm

Front Elevation each side of doors - 170mm x 1130mm

Front Elevation Doors (x2) - 520mm x 1130mm

Sincerely yours,

Paul Osborne
