Dear Mrs Walton,

Planning reference: P/16/113/ROV

I wish to state my objection to the planning reference as referenced above (I.e. Tregarthens hotel).

1. (Machinery Hours of operation).

There is no detail of what machinery large/small, noisy, drilling etc etc. Agreement to this would mean any sort of noisy, continual usage machinery, could be used.

2. The hours between 9am and 5pm is a full day on a Sunday!

It is already a fact that 'The Bank'. Area of St Mary's is both the busiest and noisy area of the island for 6 days a week from 6am to early evening, apart from the night time disturbances that already are well documented by the Local Authority and Police.

3. It is planning permission application to last **5 years!!**
4. I think it fair to say that the total 'development proposed' statement is beyond understanding in 'plain english' which is either required through planning requirements, or a deliberate act to confuse members of the community.

It makes one wonder that if such an application was made from a member of the community to undertake 'noisy use of machinery' including cement mixers/ lorries/drills etc., on a Sunday in the vicinity of an hotel that the management and residents would rightly complain!

Scilly, is, in the main, a quiet and peaceful part of the British Isles. It's why people choose to live here and upon which the islands economy is based. Agreement to this planning application which contains no detail or understanding of Scilly's environment and the people who live here would surely fail should an appeal have to be undertaken if the Local Authority agrees to the proposals. 6 days a week is enough!.
