**Full Name:** Peter Beer

**E-Mail Address:** *PROVIDED*

**Your Address:**

6 Lombard Close  
Bideford  
EX39 3HQ

**Representation:**

Dear Sir,

In theory this is a good idea, however, will the new covered area be classed as indoor or outdoor?

Will it still be the designated smoking area?

My reasons for clarification is needed, because if the bi-fold doors are fully open and I am dining that end of the bar, there will be a noticable ingress of cigarette smoke. Which like many non-smokers will not be a desirable situation.

If the area beyond the covered area to seaward, is going to be the only area where smoking is permitted, can you assure me that if it starts to rain, that no smokers will move to the covered area, and who will be policing this?

Have Environment Health had any input regarding this?

I sincerely hope these issues will be discussed at the next planning meeting, when assessing this application.

regards

Peter Beer
