Re: Starlings, Church Road, St. Mary's, TR21 ONA
Site Waste Management

Dear Lisa,

My application to install two dormer windows and to re-roof Starlings will create a certain amount of waste in terms of disposable material packaging. Therefore, I propose to do the following:

The asbestos roof tiles will be re-used to cover the garden sheds if possible and the excess will be used to line flower beds. Any remaining will be offered for similar usage on the appropriate web-page. Any not deemed to be re-usable will be taken to the Council waste management site at Moorwell.

Any roof timbers that are cut will be re-used on the property.

All packaging materials will be separated, re-used where possible (i.e. offered to local businesses for re-use) and otherwise taken to the Council waste management site at Moorwell.

Yours sincerely,

Amanda Martin
