Dear Sir

Re: Objection to Planning Application ref: P/16/129/FUL

Mr T Fletcher, Proposed Dwelling, Land at Porthcressa, St. Mary's

I am writing to object to the above proposed building application.

I believe that the proposed building is too tall and overbearing relative to the surrounding properties and it is out of character with the immediate environment.

The proposed footprint of the building is too large for the plot size and doesn't allow for any parking, or storage of items such as might be stored in a shed, bicycles, gardening equipment etc.

The timber cladding finish of the building also doesn't fit with the character of the surrounding properties, which are either traditional stone or painted render.

The proposed building is going to be very close to the path up to Buzza Hill and to the already narrow Buzza Road and due to its bulk it will block light and will change the open and appealing feel that makes the green in front a popular place to visit and sit.

I am unaware of any of the claimed "consultation with the neighbours" involving ourselves as neighbours.

Yours faithfully,

E. L. Heywood.
