I Ryan Allsop would like to show my full support for the above planning application.

I have lived on the beautiful island of St. Martins for about thirty years now. With regards to the Seven Stones Inn I have seen all the changes of hands in its history and I have seen the island without the pub. When the island was without a pub for almost two years the island hoped and prayed the next owners would be passionate, love the island and be very much part of the community. This we found and were very lucky that Dom and Emily brought the pub.

The works proposed would provide much needed extra space in the busy end of the season. Due to its design and the fact the extension proposed is already hidden by bushes and trees its impact on the skyline will be minimal.

This extension would benefit not only the Seven Stones but other businesses ie the campsite, let's etc.

With regards to new terrace extension the same greatly applies as above.

Quite simply the success of the pub and the hard work and money already spent by Dom and Emily on the pub have made it a thriving hub and the plans proposed will simply allow the pub to accommodate a growing demand.

Regards

Ryan Allsop
