Objections to above application

1. Cooking smell is very offensive during trading, I have to keep my windows closed
2. Road safety hazard. The unhitching and hitching of the trailer. Also people queuing in to the road and cars pulling up to pick their orders is an accident waiting to happen.
3. Customers seem to have little respect for the flower boxes as they use them to sit on while they wait for their orders. The park is such a pretty area and needs to be kept that way.

Yours faithfully

E. Heslin
