Subject: Mobile food outlet, Lower Strand. Planning Ref.P/17/054/FUL.

Dear Sir/ Madam,

I have been contacted by a third party re the above and would like to make the following observations and comments;

The location of an outlet in this area poses a health and safety risk with traffic passing through the Strand at sometimes more than the desired speed for a residential/amenity location and the attraction of the public to a roadside business has some significant risks!

Holgate's green is a very important to visitors and locals. to place a food outlet here [on the edge of the green] would not improve this asset to the tourist industry. The problem of smell/odour from the food preparation is difficult to control, also the waste generated would raise a problem and with the best will, the disposal arrangements are not always adhered to by people.

Holgate's green is a tranquil area in the evenings for people to relax and enjoy the view and surroundings. To place a food outlet here is not going to improve one of the few assets in Hugh town.

I already experience waste in the Strand and clear this up on a regular basis, from where it congregates, outside of my self catering

facility Minmow flats, I would not like to see this problem increase.

Along with food goes waste and the attraction of wildlife, some of which is not safe or desirable.

With the Catholic Church opposite this site it becomes an environmental issue for a place of worship and quiet enjoyment.

The existing area to the rear of the Townhall where food outlets are currently situated is the obvious location, and it would seem more sensible to make provision for any roadside/mobile outlet to operate from here.

I trust that you will include this in any planning considerations before a final decision on location is made.

With regards,

K. Simpson[mr]

Minmow flats,

3 Lower Strand.
