Lisa,

There will initially be 3 Fascicularia per planter, equally spaced with some seasonal planting of herbaceous bedding plants to fill some space as they grow. The plants will be at least 22cm tall when planted, and will grow to 45cm with a 60cm spread. This will cover the planters which are 1.2m long each.

Total number of plants = 12. The number and size of planters will match the original plans.

Regards,

Nathan

Importance: High

Dear Nathan

The reports and decision notices are all ready and waiting to be signed off. In order that we are able to issue these today please can you send through a 'planting schedule', as per the attached earlier email?

Many thanks
Lisa

Lisa,

I agree an extension of time until the 4th of May.

I will get details confirmed shortly

Regards,

Nathan
