P/18/017 FUL

Area where extended store is planned.

RECEIVED BY THE
PLANNING DEPARTMENT
02 MAY 2018

Intention is to remove cladding from right hand end and leave underlying frame.
Window will be removed and a door aperture will be put in its place (shown by green line).
This will lead through to extended store, which will be timber clad to match existing building.

PLANNING DEPARTMENT
02 MAY 2018

P/18/017 FUL

View from inside existing store showing window that will become door aperture to extended store, shown by green lines.

RECEIVED BY THE
PLANNING DEPARTMENT
02 MAY 2018

Green line indicates level of extension floor, stepped up 0.42m above floor of existing building.
Cladding and window from this end will be re-applied to right hand end of extension.

RECEIVED BY THE
PLANNING DEPARTMENT
02 MAY 2018

Level of extension floor. Groundwork will remove approx 0.50 m of sand to provide rubble base and concrete slab for extension floor. Sand removed will be used for building work and remainder distributed to adjacent beach. Increased height of extension floor required due to slight slope of track at site. Increased height will allow doors in extension to open.
