Subject: For Lisa Walton re. application no. P/18/051
Date: 26 July 2018 13:53:06

Dear Lisa

I hope this is going to the right person !

Planning application P/18/051 by the Karma Group for six glamping units is not in the best interests of the islands and St Martins' specifically .

My objection to the plan is on two fronts .

Firstly there seems to be an easy assumption that a development on "the back of the island" is not going to change or even spoil the look and more importantly the feel of the island . As mentioned in the application this is in an area of outstanding natural beauty . As such it needs protecting vigorously from intrusion and erosion . The site will have up to twenty four people in and around the hill area changing the quiet feel of the place .

Secondly the applicant states that impact will be minimal . How does the hotel intend to deal with "water in" and "water out" ? There is very little information on how they will cope with an increase of about 20% occupancy when it is struggling already with drinking water and sewage .

Please consider these points and get some answers before deciding on this application . Thank you for your time .

Yours sincerely Nic Murray
