Application Number: P/19/041/HH	Town and Country Planning (Environmental
	Impact Assessment) Regulations 2017
Screened by: Yvonne Dale	
On: 20th August 2019	

## This is a schedule 2 development by virtue of 3 (i) of Schedule 2 of the EIA Regs

1. The characteristics of development must be considered having regard in particular to:

	<del>,</del>
a) the size of the development;	The development is for the replacement of an existing corrugated asbestos sheeting roof with terracotta double roman tiles.
b) the accumulation with other development;	The proposed development replaces an existing roof on an existing property.
c) the use of natural resources;	The development replaces an asbestos sheeting roof with terracotta roman tiles. Limited use of natural resources in terms of materials of construction.
d) the production of waste;	Some production of waste for construction purposes.
e) pollution and nuisances;	Some pollution and nuisance as a result of construction works.
f) the risk of accidents, having regard in particular to substances or technologies used.	Likely to be low risk of accidents having regard to the standard technologies and methods to be used.

2. The environmental sensitivity of geographical areas likely to be affected by development must be considered having regard, in particular, to:

a) the existing land use;	The existing land use is residential
b) the relative abundance, quality and	Outside the site there is a high abundance of
regenerative capacity of natural resources in the area;	high quality natural resources, both coastal and countryside of both designated international importance and local nature reserves.

		1	
	absorption capacity of the natural		ural
	nment, paying particular attention to the	environment is considered to be high.	
follow	ing areas:		
ı.	Wetlands;		
II.			
III.	Mountain and forest areas;		
IV.	Nature reserves and parks;		
V.	Areas classified or protected under		
	Member states' legislation; areas		
	designated by Member States pursuant to		
	Council Directive 79/409/EEC on the		
	conservation of Wild Birds (a) and Council		
	Directive 92/43/EEC on the conservation of natural habitats and of wild fauna and		
	flora (b);		
VI.	· · ·		
	standards laid down in Community		
	legislation have already been exceeded;		
VII.	,		
VIII.	Landscapes of historical, cultural or		
	archaeological significance;		
	set out under paragraphs 1 and 2 above, e extent of the impact (geographical and size of the affected population);	The impact will be limited to the building.	
aicas	and size of the affected population),		
b) The	e trans-frontier nature of the impact;	There will not be any trans-frontier impacts	
c) The impac	e magnitude and complexity of the st;	Low	
d) The	e probability of the impact;	Low	
e) The	e duration, frequency and reversibility of apact.	The proposed replacement roof material work be permanent and reversible.	uld
Q1	Is it a major development which is of more	e than local importance?	N
Q2	Does it affect a particularly environmental	lly sensitive or vulnerable location?	N
Q3	Does it have unusually complex and pote	entially hazardous environmental effects? $igl[$	N
<u>Concl</u>	<u>usion</u>	Not required	
<b></b>	nmental Impact Assessment	Not required
