

To whom it may concern

14.01.20

This letter is regarding planning permission for the Holt ram's valley TR21 0JX.

This is a brief letter to explain why we are wanting to converting the garage and want separate access, we have no intention of splitting the house into two separate dwellings, I have a 21yr old son living with us and an elderly parent who currently lives in Spain I would like him to come and live with us as he is in poor health and will require 2 knee replacements very soon hence need for ground floor accommodation.

We would like to be able to access the garden without walking through their bedroom/living space every time, but the house will not be separated and there will still be access to rest of house it would just be nice for their privacy.

Regards Mr and Mrs squire
