

Heritage Impact Assessment – Installation of Solar Canopy and Electric Vehicle Charging Points at:

Site 15A, Ennor Close

Constraints List

Historic Environment	Scheduled Monument	50m	Ennor Castle, Old Town, St Mary's
Historic Environment	Listed Buildings		NONE
Historic Environment	Archaeological Constraint Area	15m	Old Town <i>(Archaeological Constraint Areas do not have a link or an entry anywhere. They are areas where it is expected there to be higher levels of archaeological interest in the event of groundworks).</i>
Historic Environment	Archaeological Constraint Area	183m	Tolman Point/Porth Minick
Historic Environment	Archaeological Constraint Area	194m	Lower Moors
Historic Environment	Historic Find Spots	<100m	3
Natural Environment	SSSI	194m	Lower Moors

Listed Buildings

There are no listed buildings within the vicinity of the proposed site

Scheduled Monument

There is one Scheduled Monument within the vicinity of the proposed site, Ennor Castle. The site is on the opposite side of the road to the castle site and set within existing buildings and garages on an area already set aside for parking and should not have an impact on the scheduled monument. The proposal will not be seen in the same context as Ennor Castle and will therefore have no impact on its special architectural or historical interest or setting.

Archeological Constraints and Find Spots

Archeological Constraints and Find Spots are within the proximity of the proposed site. Details of the proposed foundations for the site have been provided to show the groundworks that are intended. In addition, a plan showing the proposed route for the connection trench to the Western Power Distribution network has been supplied below to show the additional trenching that will be required for this site.

The three find spots identified on Cornwall & Isles of Scilly Heritage Environment Record are TRENCH LANE - Neolithic findspot (MCO31699), OLD TOWN - Medieval findspot (MCO30991) and OLD TOWN

- Bronze Age cist (MCO30986). The find spots are away from the proposed site and will not affect the significance of the finds.

SSSI

The proposed electric vehicle charging site will not have an impact on the Site of Special Scientific Interest at Lower Moors.

Map showing short length of trenching to local nearby power cable.
