Heritage Impact Assessment – Installation of Photovoltaic Panels and Electric Vehicle Charging Point at:

Site 27, Bryher

Listed Buildings

There are no listed buildings within 100m of the proposed site. The Grade II Church of all Saints is the closest listed building to the proposed site at the bottom of the hill below the emergency services station. The Church will not be seen in the context of the proposed development.

Scheduled Monument

The Post-Medieval Pilot Lookout on Timmy's Hill is over 150m from the proposed development. The solar panels and charging point are to be installed on the existing emergency services building and so will not change the context in which the Scheduled Monument is seen.

Non-designated assets

There are 4 listing on the Cornwall and Isles of Scilly Historic Environment Record within 100m of the proposed site. STADDON - Post Medieval nonconformist chapel, STADDON - Prehistoric findspot, TIMMYS HILL - Bronze Age hut circle and BRYHER - Post Medieval field system. As stated above the solar panels and charging point are to be installed on the existing emergency services building and so will not change the context in which the assets are seen.
