Development Proposed: Demolition of garage and construction of Local Need Dwelling.

Location: Garage, Buzza Road, Hugh Town, St Mary's.

Dear Ms Walton,

Thank you for your recent letter informing us of the amended plans submitted for the proposed development at Buzza Road, Porthcressa.

We are strongly objecting to this application as the site is simply unsuitable for such a property and it would have a massive impact on all the existing residents, let alone ruin a lovely corner on the island.

We regularly visit our relatives Mr. and Mrs. Child at 'Domremy' and it would appear the proposed development may/will encroach the garden of their property and/or therefore block the entrance up to their front door.

If you are able to visit the site you will see why we think this proposal is just not possible.

Incidentally, we understand that the garage on site is one of the original sheds of the 'Porthcressa Boat Building Company'. Surely this has some historical interest?

We do hope common sense prevails.

Yours faithfully,

Mr. and Mrs. H. Birt
