Dear Planners

We are writing this letter to you in support of our application to change our business from B & B accommodation to two self catering units.

We have been running our B & B for twenty years and have enjoyed our time doing this, however with the Covid 19 pandemic and our age we have decided the time is right to change the type of accommodation we offer. On speaking to our guests and research we have done we are very much aware that many people are looking for a less face to face holiday experience and would welcome the independence self catering gives them.

The units we intend to develop will be of a very high standard and will enhance the visitor experience when they come to Scilly for a holiday.

Yours faithfully

Mrs Jan Parr
