Town and Country Planning (Listed Buildings and Conservation Areas) Act 1990  
Town and Country Planning (Development Management Procedure) Order 2010

### **GRANTING OF LISTED BUILDING CONSENT**

<b>Application No:</b>	P/20/066/LBC	<b>Date Application Registered:</b>	2nd September 2020
<b>Applicant:</b>	Lloyds Banking Group PO Box 112 Cannons House Cannons Way Bristol BS99 7LB	<b>Agent:</b>	Mr Rob Harries Studio 211 Creative Quarter 8A Morgan Arcade Cardiff CF10 1AF
<b>Site Address:</b>	Lloyds Bank Plc The Bank Hugh Town St Mary's Isles Of Scilly		
<b>Proposal:</b>	Proposed new level access into the branch comprising alteration/removal of the existing external entrance steps, lowering of the internal floor (where required) and alterations to the existing entrance door surround. Together with the new internal platform lift and internal alterations/re-modelling to facilitate the works. (Listed Building)		

In pursuance of their powers under the above act, the Council hereby **PERMIT** the above development to be carried out in accordance with the following Conditions:

**C1 The development hereby authorised shall be begun not later than three years from the date of this consent.**

Reason: In accordance with the requirements of Section 18 of the Planning (Listed Buildings and Conservation Areas) Act 1990 (as amended).

**C2 The development hereby permitted shall be carried out in accordance with the approved details only including:**

- **Plan 1 Location and Block Plan, Drawing Number: 50252700-AREX-00-0010, Dated 21/008/2020**
- **Plan 2 Proposed Elevations, Drawing Number: 50252700-AR01-E1-0101, REV B Dated 02/12/2019**
- **Plan 3 Proposed Ground Floor Plan, Drawing Number: 50252700-AR01-00-0001, 02/12/2019**
- **Plan 4 Entrance Door Details, Drawing number: 50252700-AR01-00-0902 Dated 07/12/2020**
- **Plan 5, Ramp Details, Drawing Number: 5025700-AR01-00-0901, Dated 07/12/2020**
- **Plan 6 Heritage Statement, Dated August 2020**

These are stamped as **APPROVED**

Reason: For the clarity and avoidance of doubt and in the interests of the character and appearance of the Listed Building, Conservation Area, Area of Outstanding Natural Beauty and Heritage Coast in accordance with Policy 1 of the Isles of Scilly Local Plan 2005 and Policies OE1 and OE7 of the Submission Isles of Scilly Local Plan (2015-2030).

**Further Information**

1. In dealing with this application, the Council of the Isles of Scilly has actively sought to work with the applicants in a positive and proactive manner, in accordance with paragraph 38 the National Planning Policy Framework 2019.

Signed:

**Senior Officer: Planning and Development Management**

*Duly Authorised Officer of the Council to make and issue Listed Building Consent decisions on behalf of the Council of the isles of Scilly.*

Existing radiator to be removed and supply pipework taken back to suitable point and capped off.

New platform lift with new stepped access to ATM area and Banking hall. Allow for 2No lift call pads on floor mounted posts. New handrails and balustrade to both sides of steps

Internal floor level lowered by approx 310mm to form level access into branch (outline of extent shown in red). Entrance approach to be ramped maximum 1:12, with new handrails on posts to both sides.

Drainage thought to be from branch, pipework route and levels to be determined during intrusive survey including affect on pipework as a result of reducing floor levels ie will there be sufficient fall in pipe at new level.

Existing stone steps and entrance landing to be cut back and levels reduced to form new access into branch. Allow for redressing existing stone and / or new stonework to match along sides of opening.

New door frame with new glazed fanlight above. Apply new dusted crystal vinyl to fanlight together with new Black Horse logo vinyl. Existing timber door to be reused with new automated opening system and new glazing to 2No upper panels - glazing to be agreed with Planners. Allow for relocating post box within door including all making good. New safety barrier to rear of door. Install new heavy duty door heater supported by side walls ie not foxed to ceiling

Remove existing lobby, form new downstand where lobby partition removed. Retain existing decorative coving and cornice detailing. Existing radiator to be removed and supply pipework taken back to suitable point and capped off. Existing overdoor heater to be removed.

New increased length radiator - adapt existing pipework to suit.

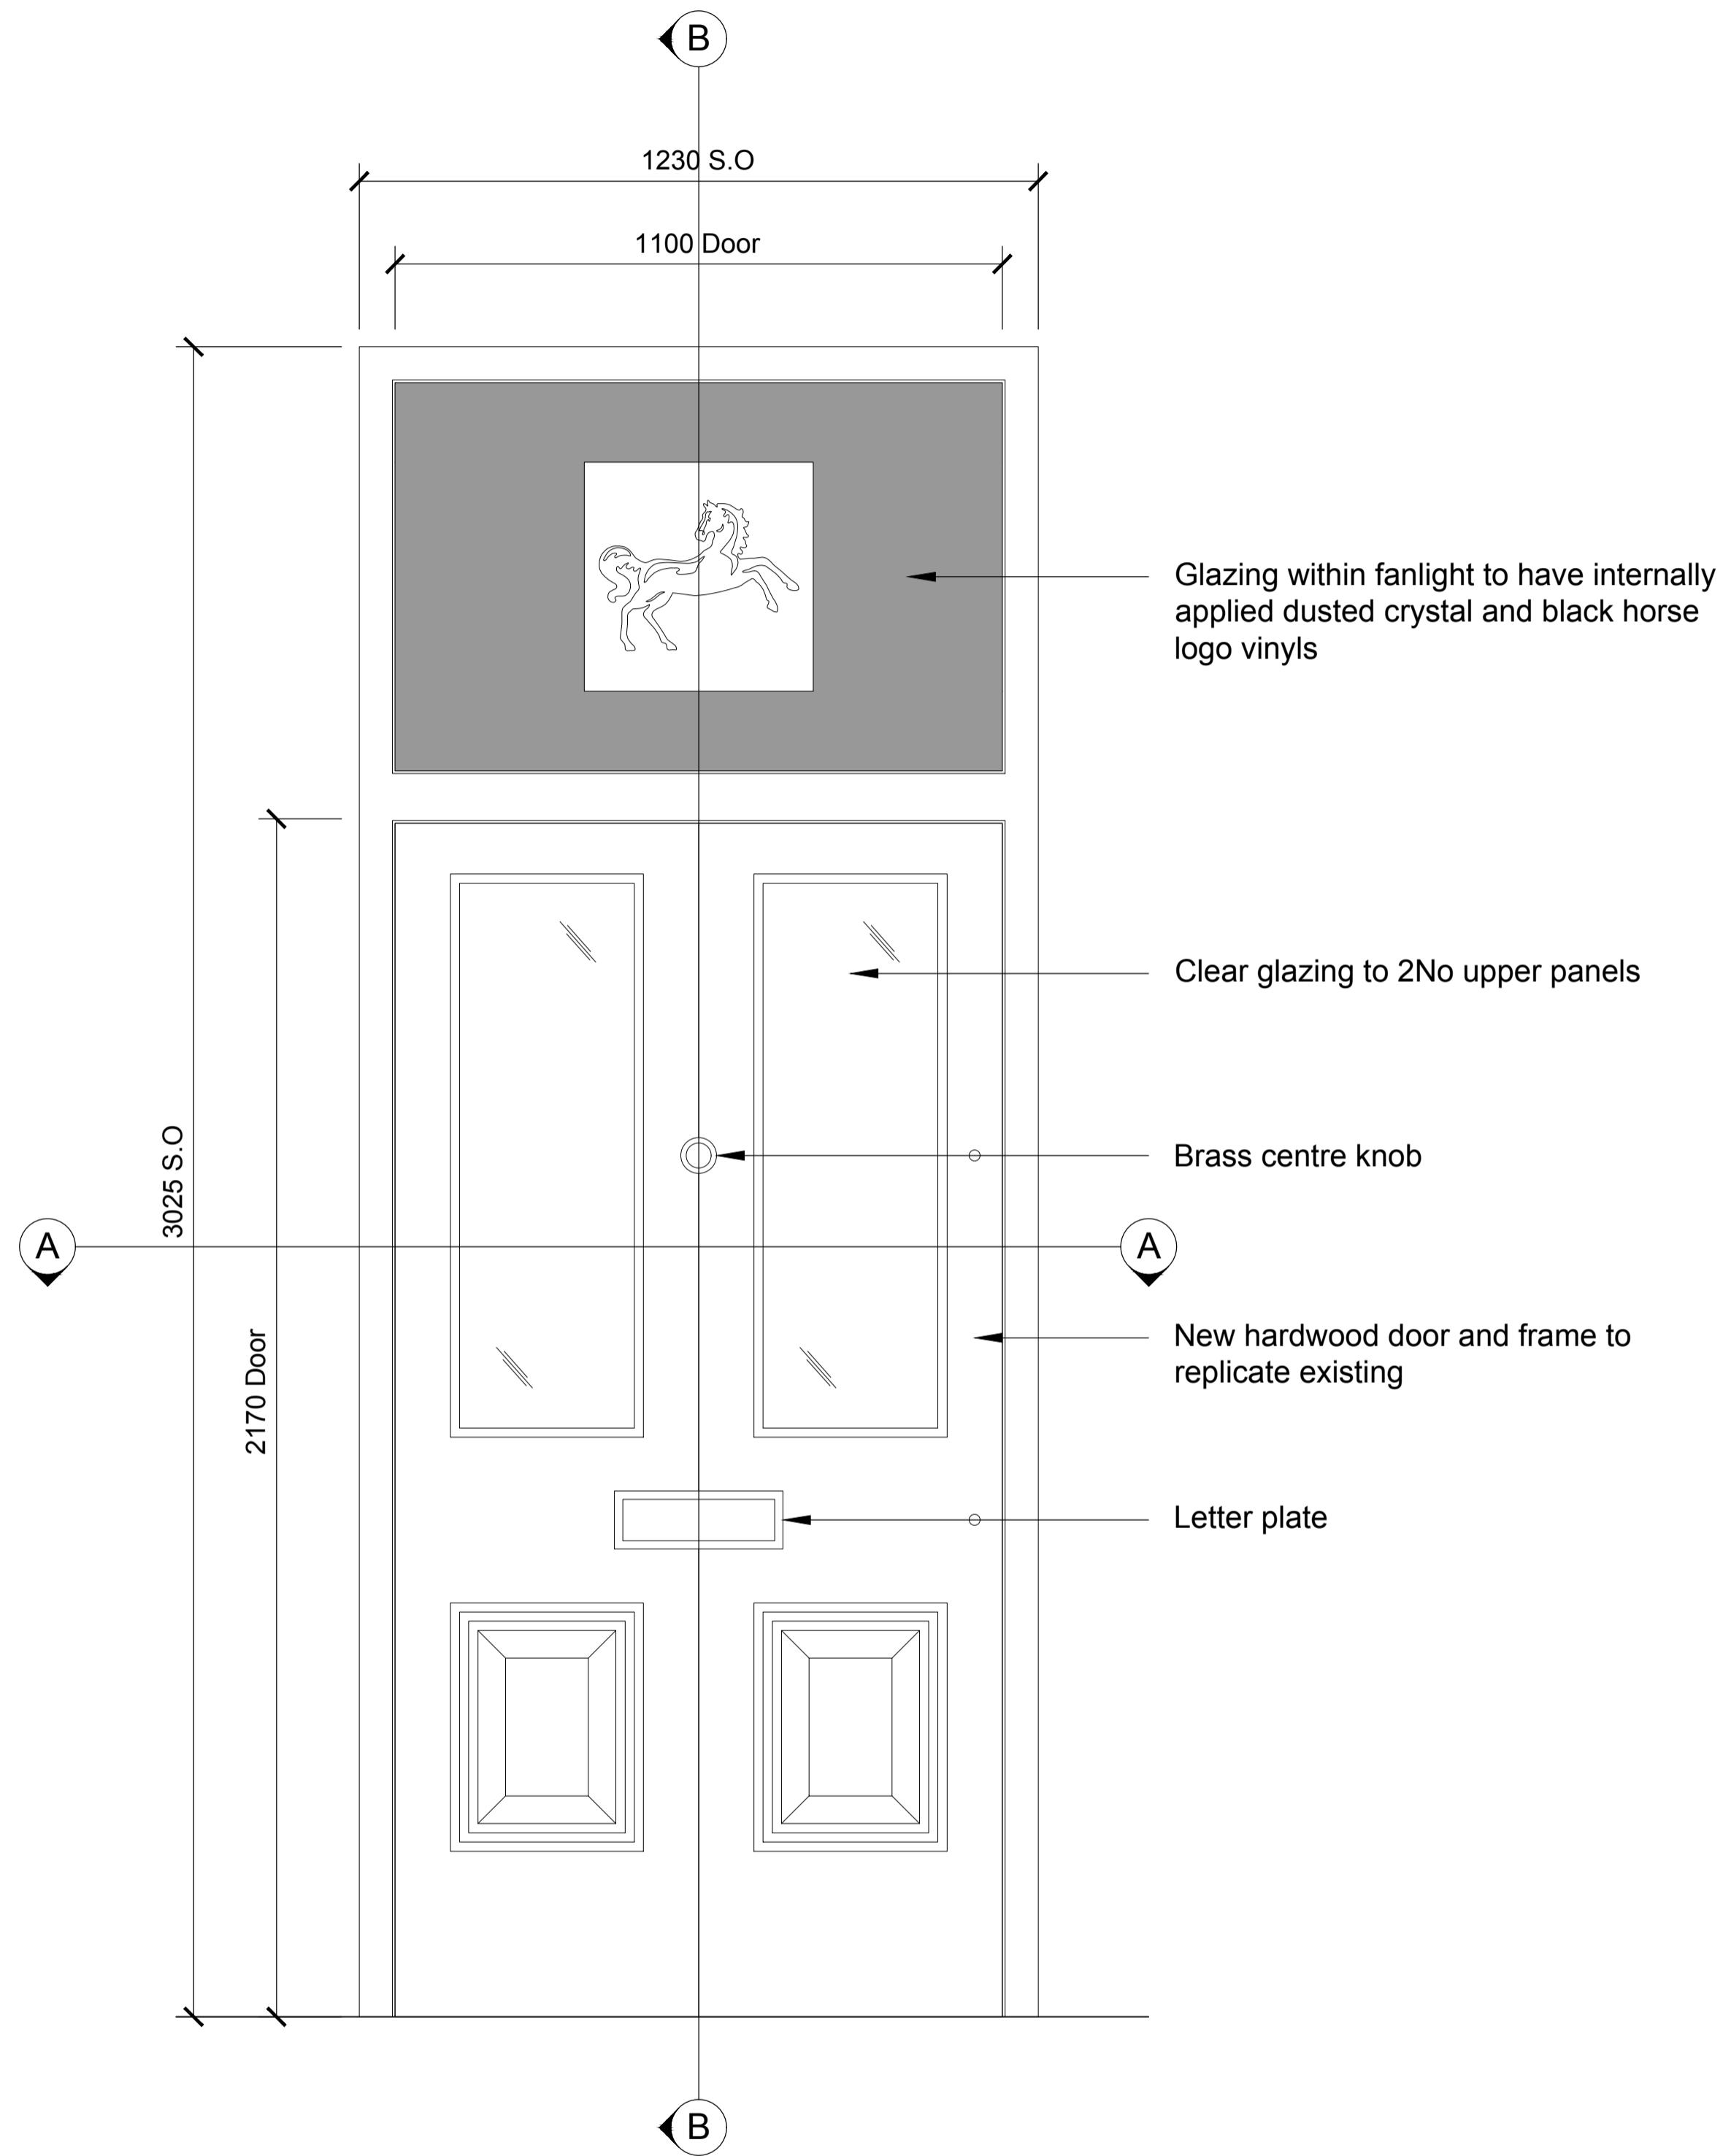

Existing screened counters removed including lighting battens fixed to screen fronts. Install 2No new screened counters. Counters to be set back from original counter line

Relocate existing wall mounted graphic

New reduced length radiator - adapt existing pipework to suit.

Remove existing wall and worktop - note power and data. Install new 1100mm high partition wall with timber capping and worktop. Install new power and data to match existing quantities. Relocate existing storage units and filing cabinets.

Proposed Internal Platform Lift and Steps  
at  
Lloyds Bank  
Hugh Street  
St Marys  
Isles of Scilly  
TR21 0PW

Heritage Statement  
August 2020

## Introduction

This Heritage Statement has been prepared on behalf of the Lloyds Banking Group. It accompanies a Planning and Listed Building Application for new level access into the branch.

## Context

The property is situated in a central location within Hugh Town, St Marys, Isle of Scilly.

Thought to have been originally constructed in the mid 19<sup>th</sup> century as a house, the ground floor of the property has subsequently been converted into a branch of Lloyds Bank.

The property is Grade II listed and within Isle of Scilly Conservation Area and Area of Outstanding Natural Beauty (AONBs).

## Heritage Statement

SV9010 HUGH STREET, Hugh Town 1358-0/8/60 (South West side) Lloyds Bank

GV II

House, now bank. Mid C19. Colourwashed render over granite rubble; gabled scantled slate roof; rendered end stacks. Double-depth plan. 2 storeys; 4-window first-floor range. Horned 2/2-pane sashes. Porch to left of centre with 2 Roman Doric columns and correct Doric antae, entablature and cornice; 4-panelled door and rectangular fanlight. Interior: enriched cornices to ground floor. Included for group value.

Listing NGR: SV9018110605  
(Source: Historic England)

## Proposed Works

In accordance with the proposed plans submitted with the Planning and Listed Building Application, the work will comprise of the removal of the existing external entrance steps, lowering of the internal floor (where required) and alterations to the existing entrance door and surround. In addition, internally there will be a new platform lift and steps to enable customers to gain independent access into the branch together with internal alterations and remodelling to facilitate these works.

Existing Entrance

# SADLER BROWN ARCHITECTURE

Existing Banking Hall

## Objective

Currently the only access into the branch for customers is via the main front entrance steps. This limits potential customers particularly those with disabilities and / or parents with pushchairs etc.

Therefore, the principle objective of the proposed works is to remove the external steps and provide level access into the branch, together with a new internal platform lift and steps which will enable unrestricted and independent access for all.

## Proposed Solution

It is considered that the proposed solution provides the least harm to the building and its immediate surroundings.

Alternative solutions such as an external ramp were deemed unsuitable, primarily due to the constraints of the existing pavement in terms of levels, but also from a visual perspective.

## Significance of Affected Fabric

The proposal will cause some loss to the original fabric of the building, although this will be limited to the removal of the 2No stone entrance steps and partial lowering of the internal floor.

Externally it is intended that the door frame is to be adapted / extended to suit the new levels, the existing door modified and reused and a new glazed fanlight installed above.

Extent of entrance steps to be removed

The interior of the branch has been subject to a modern fitout and generally consists of modern studwork partitions, componentry and furniture. It is proposed that the internal layout of the public area will be remodelled to provide better access and circulation areas.

Existing Ground Floor Plan

Proposed Ground Floor Plan

Where new partitions abut existing walls, they are to be scribed around the coving and cornice detailing. In addition, the new partitions will be finished below the existing ceiling level to avoid unnecessary damage.

### Assessing Harmful Impact

Externally the proposed works will result in the loss of 2 No stone entrance steps which are believed to be part of the original construction.

The remaining external elements would remain untouched retaining the buildings original character.

Internally the loss of the original fabric of the building would be limited to the partial removal / lowering of the ground floor. It is thought the structure, although not confirmed, will be timbers from the original build. However, the floor finish appears to be modern timber sheet as opposed to the original floorboards.

## **Assessing Beneficial Impact**

The proposed works would benefit customers as the building would become fully accessible, in addition to fulfilling the Banks obligations under the Equality Act 2010.

This will enhance the sustainability of the building in its current use and its hoped the altered banking facilities will continue to enhance this historic area of the town and its endeavours to bring both new and existing customers to the bank and its neighbouring retailers.
