Subject: Re: 8b Buzza Street Window Replacement

The windows are currently timber and single glazed and my customer wants to change them to PVCu double glazed to enhance energy efficiency within the property. All the buildings around the area adjacent and opposite have white PVCu windows so will match in nicely with them.

The existing timber windows will have the glass separated and will then be cut up in to smaller pieces. The timber and the glass will then be sent to the recycling centre separately via Richard Hand Haulage.

Any questions or anything I've missed please let me know.

Kind regards

Kris
