Hi Lisa,

Do you require a formal written consent to the conditions put on the commencement of this project? Or is this email stating my full agreement and compliance suitable for you. No worries either way.

For the record then I am fully in agreement with all those proposals and will approach them all in due course.

I may need some assistance in knowing what form these conditions need to be presented to you, but since the start of this project is at least 6 months to a year away I'm sure that will be no problem.

Thank you for the swift communication regarding this planning, and then efficiency of the whole planning procedure thus far.

Kind regards,
Will Hensleigh
