

Statement

M Trenear

Mr Trenear was made redundant recently during the pandemic. He has started a tiling & plastering business on the islands. The business will require storage for tools and a stock of sheet materials etc.

There has been a shed in the location for 30years. It has recently been removed due its poor state. The shed will be for storage only so there will be no additional noise or vehicle access. The structure will sit on dry laid concrete blocks and no additional waste will be created.
