Subject: Planning Application P/21/022

Dear Planning,

I wanted to raise a question on the planning application for The Town Hall, I do realise this is outside of the window for comments, but I am not offering an objection.

I wanted to enquire if The Town Hall would still be available, in future for indoor events, such as music concerts or theatrical plays, and what facilities would be included for these community events?

At this time ST Mary's does not have a community hall or public space in which we can hold such events, and the addition of this would go a long way to engaging the community and also the visitor community.

I look forward to your comments.

Best Regards

Tim Jones
