Planning Application P/21/041/FUL - Porthcressa Bank

To whom it may concern

I just came across the planning notice for the above application. Although it seems the date for public responses has passed, I wish to object to this absurd application in the strongest possible terms, for all the obvious reasons. The entire concept is Intrusive, destructive of the natural environment, too close to coastal path and of no benefit to local residents. It would appear, from the list of parties involved, that the proposal is a cynical one, intended to produce tourist accomodation for the benefit of some absentee landlord and "local" developers. I recommend outright refusal of this application.
