

WASTE MANAGEMENT PLAN

PORCH WASTE

The small amount of concrete removed will be stored and re-used in the garden and any other building waste will be disposed of correctly at the Council's Waste and Recycling Centre or Richard Hand Carriers. Re-use is a priority.

KITCHENETTES WASTE - Ref: Highlighted on the Existing Site Survey Plan

The short-let holiday accommodation will create minimal additional waste. Each room will have 2 waste bins one for re-cycling and one for other waste items. Waste will be removed either by the guest to outside bins or changeover days by the owner. Waste bins are located at the rear of 2 Matthews Field.

Guests will also be encouraged to make use of the compost bin located in the front garden.
