Dear Liv,

Thank you for contacting us

Our records do not show any public assets within the vicinity of the site, please note SWW are unable to guarantee the accuracy of the records.

I see from the planning application that foul flows will be handled via a private septic tank and surface water via a private soakaway. As these are both private methods and not connection to the private network SWW have no comments to make.

Please can you advise if they are looking to connect the building to the public water network?

Thanks
Helen
