To planning department

I am writing to voice my concern regarding the proposed application for the Town Hall on St. Mary's.

I did not object originally as I felt as a community we needed a site for our Museum, and the facilities which were accommodated by our Town Hall previously, returned to the community and should have looked more closely at the proposal.

Sadly having seen the pictures on Facebook and realising the impact these plans make on the building, I have to send my objection.

The proposal is totally out of keeping with the area and the islands. It is industrial ugly and I feel will badly impact on the granite building of the Town Hall.

The internal dimensions and what is being offered is good, but I feel these are at too high a cost aesthetically if these plans are the only option.

I fully understand I have missed the period of consultation but would still like my concerns noted.

All the best

Alison King.
