WESTWARD LEDGE, CHURCH ROAD, ST MARY;S

PROPOSED ROOF ALTERATION

SUPPORTING STATEMENT

The Application is a resubmission, with the two gables being reduced in size to reduce the bulk of the alteration. The provision of the centre roof light would be retained, to enable less use of the electric light

WASTE MANAGEMENT PLAN

Parts of the existing roof will need to be removed for the proposed work to proceed. Items of waste, which will be quite minimal, will include slates, roofing felt, and timber roof battens. The timber will be recycled for kindling, the other items will be sent to the Council recycling centre via Richard Hand Haulage.
