As requested I attach a householder planning application to replace the storm damaged concrete fibre tile roof with dry laid natural slate, secured with stainless steel hooks on the front elevation of the above address. We have a preliminary bat and nesting bird survey being carried out by James Faulconbridge this Thursday (7th December). The planning application and supporting documents are attached as requested. I have enclosed photos of the roof in question, together with a location and block plan of the property. The £206 planning fee has been paid today. I hope this is all in order.

Regards

Julie@trelawney
