Dear Sophie, Tom and whoever it may concern.

Thank you for sharing your plans with us and thank you to Tom for talking it through with us earlier today.

We were initially concerned about noise with two shepherd's huts. However that should be helped by the fact that they will be mainly occupied by couples or single people. Tom was also kind in asking what hedging etc we would want. I think we would prefer hedging at the back of the huts, adjacent to our property, to help with noise and privacy.

We both understand how hard it is to make a living on Scilly but particularly on an offisland and how critical it is that we support young families like Tom and Sophie. Therefore we are happy to support their application and wish them every success with their venture.

With best wishes,  
John and Trish Peacock
