Site Description and Proposed Development

Chy Carn is a detached dwelling set back within its own large curtilage at the end of Hospital Lane. It is surrounded by residential properties each with their own gardens and looks out over the Power Station to the northwest. The site is bounded by stone hedge to the southwest and hedging and fences on other sides.

The property is a two-storey cream rendered building with a natural slate roof and cedar cladding in the gable ends. The roof has multiple twin sets of dormers which are clad in cedar and the windows and doors are double glazed white painted timber.

The proposal is to install a new UPVC door at the rear of the dwelling with a set of galvanized escape stairs and replace a bedroom window with a double set of UPVC patio doors. The property is used as a holiday let and the rear wing extending northeast contains bedrooms over split levels so the proposals are part of improvements to the fire safety of the dwelling provide adequate escape to that area of the building.
