In terms of the EHO comments, please see below:

- I can confirm the standard working hours will be adhered to.
- There will be no works taking place at night.
- The predicted noise levels at the nearest domestic dwelling when the plant is installed and up and running is provided within the submitted noise report. The nearest noise sensitive properties to the potential noise sources are the flats above the Co-op store. Plant noise levels have been predicted at the nearest noise-sensitive receptors. The assessment shows that noise from the proposed plant will comply with the local authority's usual requirements and other recognised guidance and should therefore be acceptable.

Kind Regards
Stacey
