While we have no wish to thwart the Applicants broad wish to bring 7 Buzza Street up to modern standards we feel this could and should be done without massively compromising the privacy of neighbouring properties. We're very glad the revised plans omit the first floor terrace but we remain concerned that the 'Juliette Balcony' designed to encourage pedestrian use does little to reduce the overlooking element. We are advised that these balconies are usually far too shallow to permit that sort of use, and request the depth of this one be reduced accordingly.
